IMPACT, OUTCOMES & APPRECIATION

MORE THAN AN ELECTION – A LEARNING EXPERIENCE

"Leadership is not about a title, it's about making a positive difference."

The Student Council Election 2026–27 proved to be more than a school activity; it became an opportunity for experiential learning. By participating in the complete process — from nominations and campaigning to speeches and voting — students gained practical understanding of democracy, representation, leadership, choice, and responsibility.

POSITIVE IMPACT ON STUDENTS

- Increased confidence and willingness to take initiative.
- Motivated students to develop themselves as future leaders.
- Provided practical public-speaking experience.
- Taught the importance of making an independent and responsible choice.
- Helped students understand rules, fairness, discipline, and respect.
- Created excitement and a stronger sense of student participation and ownership.

BUILDING A STRONGER STUDENT COUNCIL

The elected student representatives will serve as a bridge between students and school management, and will support positive initiatives, discipline, student engagement, and a more productive school environment. The democratic selection of representatives gives students greater ownership of their council, as their leaders have been chosen by the students themselves.
